I think having it included in 2 places is a good idea, that way if it's a separate admin document, it will be retained in the file.

Thanks for asking!

Jen

Jennifer,

As as reviewer of data, would you rather see the drawing as part of the test or in a separate adm document, or both? Once we complete the review, the drawing is gone.

My suggestion is to include the drawing in 2 places: 1) with the data and 2) as a separate adm document. What do you think?

Subject: Tier III Bait Station Application

Good afternoon Mr. Peacock,

I hope all is well with you. I am getting ready to submit an application for a Tier III Bait Station with supporting data. One of the requirements of the RMD is to include a drawing of the bait station, and I am wondering if it is necessary to include a description of the drawing on the Transmittal Document that accompanies the application. Will the drawing be assigned an MRID number? If you could let me know at your earliest convenience, I would greatly appreciate it. Thanks and have a good week!

Best Regards,
